

Small Business Administration

§ 125.7

by the government as a portion of the solicitation. Raw castings, forgings, and moldings are considered as materials, not as subcontracting costs. Where the prime contractor has been directed by the Government to use any specific source for parts, supplies, components subassemblies or services, the costs associated with those purchases will be considered as part of the cost of materials, not subcontracting costs.

(c) Compliance will be considered an element of responsibility and not a component of size eligibility.

(d) The period of time used to determine compliance will be the period of performance which the evaluating agency uses to evaluate the proposal or bid. If the evaluating agency fails to articulate in its solicitation the period of performance it will use to evaluate the proposal or bid, the base contract period, excluding options, will be used to determine compliance. In indefinite quantity contracts, performance over the guaranteed minimum will be used to determine compliance unless the evaluating agency articulates a different period of performance which it will use to evaluate the proposal or bid in its solicitation.

(e) Work to be performed by subsidiaries or other affiliates of a concern is not counted as being performed by the concern for purposes of determining whether the concern will perform the required percentage of work.

(f) The procedures of § 125.5 apply where the contracting officer determines non-compliance, the procurement is a full or partial small business set-aside or an SDB has claimed a preference, and refers the matter to SBA for a COC determination.

(g) Where an offeror is exempt from affiliation under § 121.103(f)(3) of this chapter and qualifies as a small business concern, the performance of work requirements set forth in this section apply to the cooperative effort of the team or joint venture, not its individual members.

The terms *concerns*, *affiliates*, *average annual receipts*, and *employees* have the meaning given to them in §§ 121.105, 121.103, 121.104, and 121.106, respectively, of this chapter.

(c)(1) A contracting officer must set aside for VSB concerns each procurement that has an anticipated dollar value between \$2,500 and \$50,000 if:

(i) In the case of a procurement for manufactured or supply items:

(A) The buying activity is located within the geographical area served by a designated SBA district, and

(2) The geographic areas served by the SBA Los Angeles and Santa Ana District Offices will be treated as one designated SBA district for the purposes of this section.

(3) If the contracting officer determines that there is not a reasonable expectation of receiving at least two responsible offers from VSB concerns

headquartered within the geographic area served by the applicable designated SBA district, he or she must include in the contract file the reason(s) for this determination, and solicit the procurement pursuant to the provisions of 48 CFR 19.502–2. SBA may appeal such determination using the same procedure described in 48 CFR 19.505.

(4) If the contracting officer receives only one acceptable offer from a responsible VSB concern in response to a VSB set-aside, the contracting officer will make an award to that firm. If the contracting officer receives no acceptable offers from responsible VSB concerns, he or she will withdraw the procurement and, if still valid, must resolicit it pursuant to the provisions of 48 CFR 19.502–2.

(d) Where a procurement is set aside for VSB concerns, only those VSB concerns whose headquarters are located within the geographic area served by the applicable designated SBA district are eligible to submit offers in response to the solicitation.

(e) Nothing in this section shall be construed to alter in any way the procedures by which procuring activities award contracts under the SBA's 8(a) Business Development program (see 13 CFR part 124).

(f) This pilot program terminates on September 30, 2000. Any award under this program must be made on or before this date.
